General Comments:

As part of the Covid pandemic response, all Hanford Elementary Schools are practicing modified food services and meal distribution plans for their students. The School District's main kitchen daily delivers hot food items and pre-packaged cold foods to each school site using warmer units and ice chests to maintain and transport food items at safe temperatures.

At each school site, meals are individually bagged and distributed to the students to take home since there are no dining options on campus. Food tables are set-up at outdoor stations where students pick-up their meals, and the distribution period lasts approximately 30 minutes.

Although a routine inspection was not conducted at Lincoln School, the current food safety practices have been evaluated by department staff at different school sites, and these were found to be appropriate and in accordance with state guidelines to minimize the spread of Covid.

We anticipate resuming all in-person inspections in the fall of 2021. Please retain a copy of this report for your records and contact the Department at 559-584-1411 if you have any questions.

Thank you!
