One reinspection will be conducted (if needed) at no charge. A service fee is assessed for each additional reinspection required.

Violation: None Noted

General Comments:

Conducted routine inspection of the food facility and made the following observations:

* Temperature monitoring controls are in place for all potentially hazardous foods. All foods were observed at safe cold (<41F) and hot (>135F) holding temperatures.

* Final cooking temperatures of hamburger patties were observed above 200F.

* Sanitizing buckets had 100 ppm chlorine concentration for proper disinfection of work surfaces. One is also stored outdoors for wiping down outdoor customer tables and counters.

* The hand washing station had soap, paper towels and hot water available.

* Observed preventive steps are being followed to minimize and reduce the spread of covid. Employees were observed with face masks, and although the kitchen space is small, attempts are made by the staff to keep distant as much as possible. Company policy requires A&W to maintain daily temperature logs for all employees.

The findings were reviewed with the operator and the report will be mailed for their records. If you have any questions, please contact our Department at 559-584-1411.
